

Product Availability in Switzerland

August 1st, 2025

Discontinuation of 0.0001 mg and 0.00 mg strengths

Due to lack of demand, the Iscador product range in Switzerland had to be adjusted as follows:

The lowest available strength will be 0,01 mg for all Iscador products. This dosage is also available as single strength packs.

Due to the established product safety and tolerability, a change in prescription from the lower dosages (0,0001 mg or 0,001 mg) to 0,01 mg is possible.

Discontinued Products		Recommended Replacement	
Pharmacode	Product	Pharmacode	Product
7552725	Iscador Qu 0,0001mg 7 Ampoules	7552748	Iscador Qu 0,01 mg 7 Ampoules
